Project Debris Diversion and Disposal Documentation

Please submit your completed Part 2 Form with documentation detailing all project debris diversion and disposal information. This may include hauler generated diversion reports, copies of weight tickets from disposal/recycling facilities which identify material type, photographs and/or receipts of materials that were donated for reuse, photographs of materials that were reused on-site or salvage for use on another project and a statement estimating the weights of salvaged, re-used or donated materials. If applicable, submit completed subcontractor acknowledgement form(s) along with any subcontractor provided debris diversion & disposal documentation.

Debris Disposal & Recycling Certification:

I certify that:	
<input type="checkbox"/>	All project C&D debris and any excavated soil, rock and vegetation associated with land clearing for this project is accounted for in the disposal and diversion documentation that is included with this submission.
<input type="checkbox"/>	All universal waste items from this project were disposed of properly and, if applicable, the associated diversion documentation is included with this submission.
By checking the above boxes and signing below, I certify that the contents of this Part 2 Form submission and all supporting documentation are a complete and accurate representation of all project related debris.
